

# PROSTAGLANDINS LEUKOTRIENES AND ESSENTIAL FATTY ACIDS

Prostaglandins Leukotrienes and Essential Fatty Acids (1991) 42, 267-270  
© Longman Group UK Ltd 1991

## Subject Index to Volume 42

### A

- Acetyl eugenol (a component of oil of cloves) inhibits aggregation and alters arachidonic acid metabolism in human blood platelets, 73
- Airway *see* Asthma
- Alcohol(ism)  
effects on platelet eicosanoid production in vitro of smoking and, 39  
effects on rat uterine spontaneous motility prostaglandin production and triglyceride metabolism of, 119
- Alpha-linolenic acid  
biosynthesis of 3-series prostaglandins in rat uterus after feeding with, 217  
in patients with septicemia, 61
- Alveolar macrophage activation in asthma, contribution of sulfidopeptide leukotrienes to, 95
- Amnion cell prostaglandin production in response to bacterial products, 167
- Aortic smooth muscle cell microsomes, cultured rat, formation of epoxyeicosatrienoic acids from arachidonic acid by, 171
- Arachidonic acid  
exogenous, effect on incorporation and metabolism of radioactive linoleic acid in cultured human fibroblasts of, 113  
exogenous, effect on prostanoic acid production in pregnant rat uterus of, 15  
in lipoproteins from hyperlipemic subjects after diets supplemented with n-3 fatty acids, 107  
as a mediator of some of the actions of phorbolmyristate acetate, 241  
metabolism of  
cytochrome P450-dependent arachidonic acid monooxygenase activity in cultured rat aortic smooth muscle cell microsomes, 171  
in neutrophils from alloxan-diabetic rabbits, 201  
platelet, effect of acetyl eugenol from oil of cloves on, 73  
plasma levels of, effects of evening primrose and safflower oils on, 245  
plasma levels of, in patients with septicemia, 61  
triacylglycerol lipase-mediated release of, for prostaglandin synthesis in rabbit kidney medulla microsomes, 251
- Aspirin: re-evaluation of the Cottbus Reinfarction Study with 30 mg per day four years after the end of the study, 137
- Asthma  
and effect of novel 5-lipoxygenase inhibitor E6080 on bronchospasm airway cellular infiltration and leukotriene production in guinea-pigs, 51  
sulfidopeptide leukotrienes and human alveolar macrophage activation in, 95
- Atopy  
disturbances in essential fatty acid- and prostaglandin E-mediated immunoregulation in, 125  
evening primrose oil as therapeutic agent in, choice of an appropriate placebo for clinical studies on, 245
- Atrial natriuretic factor: diuretic and natriuretic activity is independent of renal prostaglandins in humans, 23

### B

- Bacterial products, prostaglandin production by amnion and decidal cells in response to, 167

- Bowel disease, inflammatory: effect of the leukotriene D<sub>4</sub>/leukotriene E<sub>4</sub> antagonist SR 2640 in ulcerative colitis, 181

### Brain

- alterations of leukotriene C<sub>4</sub> and prostaglandin E<sub>2</sub> levels following different ischemic periods, 67  
prostaglandin F<sub>2α</sub> synthesis in isolated cerebellar glomeruli, 233  
Bronchospasm, effect in guinea-pigs of novel 5-lipoxygenase inhibitor E6080 on, 51

### C

- Calcium  
dietary, effect on renal prostaglandins of, 197  
effect on prostaglandin F<sub>2α</sub> synthesis in isolated cerebellar glomeruli of, 233  
role in inhibition by iloprost of contractile effect of noradrenaline in mesenteric artery rings of, 185
- Cloves, oil of: active component acetyl eugenol inhibits aggregation and alters arachidonic acid metabolism in human blood platelets, 73
- Colony-stimulating-factor production by the lung, effect of indomethacin on, 57
- Corticosteroids, transient inhibitory effect on prostaglandin E<sub>2</sub> release from rabbits' eyes following prolonged treatment with, 101
- Cottbus Reinfarction Study with 30 mg aspirin per day, re-evaluation four years after the end of the study of, 137
- Cycloheximide-stimulated prostaglandin production in the guinea-pig uterus, 261
- Cytochrome P450-dependent arachidonic acid monooxygenase activity in cultured rat aortic smooth muscle cell microsomes, 171

### D

- Decidua  
effect of bacterial products on prostaglandin production in vitro by, 167  
myometrial prostanoid production in pregnant rat in presence and absence of, 15
- Delta-6-desaturase, possible involvement in control of melanoma growth by gamma-linolenic acid of, 149
- Diabetes, alloxan-induced, metabolism of arachidonic acid in neutrophils from rabbits with, 201
- Diet(ary)  
alpha-linolenic acid, biosynthesis of 3-series prostaglandins in rat uterus following, 217  
calcium, effect on renal prostaglandins of, 197  
n-3 fatty acids, different changes of n-6 fatty acids in lipoproteins from hyperlipemic subjects after, 107  
linoleate and phenobarbital, effects on rat hepatic prostaglandin F<sub>2α</sub> glutathione S-transferase activity and oxidative stress of, 45  
long-term fish oil supplementation in the rat, differences between in vivo and in vitro production of eicosanoids following, 159
- Dihomogamma-linolenic acid  
plasma levels of, effects of evening primrose and safflower oils on, 245  
plasma levels of, in patients with septicemia, 61

## E

- E6080 (5-lipoxygenase inhibitor), effect on bronchospasm airway cellular infiltration and leukotriene production in guinea-pigs of, 51
- Eicosapentaenoic acid  
 dietary, different changes of n-6 fatty acids in lipoproteins from hyperlipemic subjects after, 107  
 effect on incorporation and metabolism of radioactive linoleic acid in cultured human fibroblasts of, 113  
 plasma levels of, in patients with septicemia, 61
- Endometrium, human, endothelin-1 stimulates prostaglandin  $F_{2\alpha}$  release from, 155
- Endothelin-1 stimulates prostaglandin  $F_{2\alpha}$  release from human endometrium, 155
- Endotoxin  
 down-regulation of prostaglandin  $F_{2\alpha}$  receptors in rat liver during treatment with, 191  
 sequential release of eicosanoids in anesthetised pigs following treatment with, 209
- Epoxyeicosatrienoic acid formation from arachidonic acid by cultured rat aortic smooth muscle cell microsomes, 171
- Eugenol acetate *see* Acetyl eugenol
- Evening primrose oil as therapeutic agent, choice of an appropriate placebo for clinical studies on, 245
- Eye(s), prolonged corticosteroid treatment in rabbits exerts transient inhibitory effect on prostaglandin  $E_2$  release from, 101

## F

- Fibroblasts, cultured human, effects of eicosapentaenoic acid and arachidonic acid on incorporation and metabolism of radioactive linoleic acid in, 113
- Free radical generation in patients with septicemia, 61

## G

- Gamma-linolenic acid  
 control of melanoma growth by, possible involvement of delta-6-desaturase in, 149  
 plasma levels of, effects of evening primrose and safflower oils on, 245  
 plasma levels of, in patients with septicemia, 61
- Glutathione S-transferase activity in rat liver, effect of phenobarbital on, 45

## H

- Heart  
 differences between in vivo and in vitro myocardial production of eicosanoids following long-term dietary fish oil supplementation in the rat, 159  
 gas chromatographic-mass spectrometric analysis of lipoxygenase products in post-ischemic rabbit myocardium, 225  
 re-evaluation of the Cottbus Reinfarction Study with 30 mg aspirin per day, 137
- Hydroperoxy-fatty acids, inactivation of thromboxane synthase by, 19
- 5-Hydroxyeicosatetraenoic acid  
 production in alveolar macrophages from asthmatic patients of, 95  
 production in neutrophils from alloxan-diabetic rabbits of, 201  
 production in post-ischemic rabbit myocardium of, 225
- 12-Hydroxyeicosatetraenoic acid, production in post-ischemic rabbit myocardium of, 225
- 12-Hydroxy-5,8,10-heptadecatrienoic acid synthesis  
 inhibition with hydroperoxy-fatty acids of, 19  
 substrate inactivation of thromboxane synthase and, 31
- Hyperlipemic subjects: different changes of n-6 fatty acids in lipoproteins following diets supplemented with n-3 fatty acids, 107

## Hypertension

- and effect of dietary calcium on renal prostaglandins, 197  
 in pregnancy, production of urinary 11-keto-thromboxane  $B_2$  in, 91

## I

- Iloprost inhibition of contractile effect of noradrenaline in mesenteric artery rings: evidence for a possible calcium-dependent mechanism, 185
- Immune system  
 disturbances of essential fatty acid- and prostaglandin E-mediated immunoregulation in atopy, 125  
 immunosuppression by seminal plasma from fertile and infertile men: inhibition of natural killer cells correlates with seminal prostaglandin concentration, 257
- Indomethacin, effect on colony-stimulating-factor production by the lung of, 57
- Inflammation  
 eicosanoid release and early changes in two acute non-specific inflammatory reactions, 7  
*see also* Asthma; Ulcerative colitis; Uveitis
- Ischemia  
 cerebral, alterations of leukotriene  $C_4$  and prostaglandin  $E_2$  levels in rat brain tissue following different periods of, 67  
 gas chromatographic-mass spectrometric analysis of lipoxygenase products in rabbit myocardium following, 225

## K

- Kidney  
 effect of dietary calcium on renal prostaglandins, 197  
 renal excretory activity of atrial natriuretic factor is independent of renal prostaglandins in humans, 23  
 triacylglycerol lipase-mediated release of arachidonic acid for prostaglandin synthesis in rabbit medulla microsomes, 251  
 triple signal transduction model for the mechanism of prostaglandin  $E_2$  actions in rabbit cortical collecting duct, 143

## L

- Leukotriene  $B_4$   
 bronchoalveolar lavage fluid levels of, effect in guinea-pigs of novel 5-lipoxygenase inhibitor E6080 on, 51  
 synthesis of  
 in alveolar macrophages from patients with asthma, 95  
 during endotoxin-induced shock in anesthetised pigs, 209  
 in neutrophils from alloxan-diabetic rabbits, 201  
 in post-ischemic rabbit myocardium, 225
- Leukotriene  $C_4$   
 bronchoalveolar lavage fluid levels of, effect in guinea-pigs of novel 5-lipoxygenase inhibitor E6080 on, 51  
 metabolism of, in alveolar macrophages from patients with asthma, 95  
 rat brain tissue levels of, alterations following different ischemic periods in, 67
- Leukotriene  $D_4$ /leukotriene  $E_4$  antagonist SR 2640, effect in ulcerative colitis of, 181
- Linoleic acid  
 dietary, effects on rat hepatic prostaglandin  $F_{2\alpha}$  glutathione S-transferase activity and oxidative stress of phenobarbital and, 45  
 incorporation and metabolism in cultured human fibroblasts of, effects of eicosapentaenoic acid and arachidonic acid on, 113  
 in lipoproteins from hyperlipemic subjects after diets supplemented with n-3 fatty acids, 107  
 plasma levels of, effects of evening primrose and safflower oils on, 245
- Lipid peroxidation in patients with septicemia, 61
- Lipocortins: an update, 83
- Lipo-prostaglandin preparations, 1

- Lipoproteins, different changes of n-6 fatty acids in, from hyperlipemic subjects after diets supplemented with n-3 fatty acids, 107
- 5-Lipoxygenase  
activity in post-ischemic rabbit myocardium, 225  
inhibitor E6080 of, effect on bronchospasm airway cellular infiltration and leukotriene production in guinea-pigs of, 51  
metabolism of arachidonic acid in neutrophils from alloxan-diabetic rabbits by, 201
- Liver  
down-regulation during endotoxemia of prostaglandin  $F_{2\alpha}$  receptors in, 191  
phenobarbital increases rat hepatic prostaglandin  $F_{2\alpha}$  glutathione S-transferase activity and oxidative stress, 45
- Lung  
contribution of sulfidopeptide leukotrienes to alveolar macrophage activation in asthma, 95  
effect of indomethacin on colony-stimulating-factor production by, 57

## M

- Macrophages  
alveolar, role of sulfidopeptide leukotrienes in activation in asthma of, 95  
peritoneal, ultrastructural localization of arachidonic acid in, 131
- Melanoma, possible involvement of delta-6-desaturase in gamma-linolenic acid-controlled growth of, 149
- Menorrhagia: and stimulation by endothelin-1 of prostaglandin  $F_{2\alpha}$  release from human endometrium, 155
- Mesenteric artery rings, inhibition by iloprost of contractile effect of noradrenaline in, 185
- Myocardium *see under* Heart
- Myometrial prostanoid production in pregnant rat, 15

## N

- Natural killer cell function, inhibition by human seminal plasma from fertile and infertile men of, 257
- Neurotransmitter release: and prostaglandin  $F_{2\alpha}$  synthesis in isolated cerebellar glomeruli, 233
- Neutrophils  
from alloxan-diabetic rabbits, arachidonic acid metabolism in, 201  
from post-ischemic rabbit myocardium, lipoxygenase products in, 225
- Noradrenaline, inhibition by iloprost of contractile effect in mesenteric artery rings of, 185

## O

- Oxidative stress, effect of phenobarbital on rat hepatic prostaglandin  $F_{2\alpha}$  glutathione S-transferase activity and, 45

## P

- Peritoneal macrophages, ultrastructural localization of arachidonic acid in, 131
- Phenobarbital increases rat hepatic prostaglandin  $F_{2\alpha}$  glutathione S-transferase activity and oxidative stress, 45
- Phorbolmyristate acetate, arachidonic acid as a mediator of some of the actions of, 241
- Phospholipase  $A_2$  activity, effect on prostaglandin  $F_{2\alpha}$  synthesis in isolated cerebellar glomeruli of, 233
- Platelet(s)  
aggregation of, effect of acetyl eugenol from oil of cloves on, 73

- eicosanoid synthesis by  
effect of acetyl eugenol from oil of cloves on, 73  
effects in vitro of alcoholism and smoking on, 39
- Pleural cavity: eicosanoid release and early changes in two acute non-specific inflammatory reactions, 7
- Pregnancy  
arachidonic acid metabolites in rat uterus, 15  
ectopic, prostaglandin versus expectant management in, 177  
prostaglandin production by amnion and decidua cells in response to bacterial products, 167  
urinary 11-keto thromboxane  $B_2$  production in normal and hypertensive patients, 91
- Prostacyclin *see* Prostaglandin  $I_2$
- Prostaglandin  $D_2$  production in vitro by platelets, effects of alcoholism and smoking on, 39
- Prostaglandin E-series  
immunoregulation mediated by, disturbances in atopy of, 125  
seminal plasma levels of, inhibition of natural killer cell function correlates with, 257  
*see also* Prostaglandin  $E_1$ ; Prostaglandin  $E_2$
- Prostaglandin  $E_1$   
suppression effect on immunoregulation in atopy of, 125  
synthesis in rat uterus of, following chronic alcohol consumption, 119
- Prostaglandin  $E_2$   
effect on immunoregulation in atopy of, 125  
immunocytochemical localization in stimulated peritoneal macrophages of, 131  
rat brain tissue levels of, alterations following different ischemic periods in, 67  
release from rabbits' eyes of, prolonged corticosteroid treatment exerts transient inhibitory effect on, 101  
synthesis of  
in guinea-pig uterus, stimulation by cycloheximide of, 261  
by platelets in vitro, effects of alcoholism and smoking on, 39  
in pregnant rat uterus, 15  
in rat uterus following chronic alcohol consumption, 119  
renal, effect of dietary calcium on, 197  
renal, triacylglycerol lipase-mediated release of arachidonic acid for, 251  
triple signal transduction model for the mechanism of actions in rabbit cortical collecting duct of, 143
- Prostaglandin  $E_3$  biosynthesis in rat uterus after alpha-linolenic acid feeding, 217
- 6-keto-Prostaglandin  $F_{1\alpha}$  synthesis  
during endotoxin-induced shock in anesthetised pigs, 209  
in guinea-pig uterus, stimulation by cycloheximide of, 261  
in pregnant rat uterus, 15
- Prostaglandin  $F_{2\alpha}$  (synthesis)  
in guinea-pig uterus, stimulation by cycloheximide of, 261  
in isolated cerebellar glomeruli, 233  
in pregnant rat uterus, 15  
in rat liver, effect of phenobarbital on, 45  
receptors in rat liver, down-regulation during chronic endotoxemia of, 191  
release from human endometrium of, stimulation by endothelin-1 of, 155
- Prostaglandin  $F_{3\alpha}$  biosynthesis in rat uterus after alpha-linolenic acid feeding, 217
- Prostaglandin  $H_2$   
effects of alcoholism and smoking on in vitro platelet eicosanoid production from, 39  
substrate inactivation of thromboxane synthase preferentially decreases thromboxane  $A_2$  production, 31
- Prostaglandin  $I_2$  (Prostacyclin)  
myocardial release of, effects in the rat of long-term dietary fish oil supplementation on, 159  
release following induction of acute non-specific inflammation in the pleural cavity of, 7  
*see also* Iloprost

## R

- Renal prostaglandins *see under* Kidney

## S

- Safflower oil, effect on plasma fatty acid levels in humans of, 245
- Seminal plasma, effects on natural killer cell function in fertile and infertile men of, 257
- Septicemia, free radical generation lipid peroxidation and essential fatty acids in patients with, 61
- Smoking, effects on platelet eicosanoid production in vitro of alcoholism and, 39
- SR 2640 (leukotriene D<sub>4</sub>/leukotriene E<sub>4</sub> antagonist), effect in ulcerative colitis of, 181

## T

- Tetranorprostanemonoic and tetranorprostanedioic acids, effect of long-term dietary fish oil supplementation in the rat on urinary excretion of, 159
- Thromboxane A<sub>4</sub>  
myocardial release of, effects in the rat of long-term dietary fish oil supplementation on, 159  
synthesis of, inhibition with hydroperoxy-fatty acids of, 19  
synthesis of, substrate inactivation of thromboxane synthase causes preferential decrease in, 31
- Thromboxane B<sub>2</sub> concentrations during endotoxin-induced shock in anesthetised pigs, 209
- 11-keto-Thromboxane B<sub>2</sub>, urinary production in normal and hypertensive pregnancies of, 91
- Thromboxane synthase  
inactivation with hydroperoxy-fatty acids of, 19  
substrate inactivation of, 31
- α-Tocopherol, rat hepatic, effects of dietary linoleate and phenobarbital on, 45
- Triacylglycerol lipase-mediated release of arachidonic acid for prostaglandin synthesis in rabbit kidney medulla microsomes, 251
- Triglyceride metabolism in rat uterus following chronic alcohol consumption, 119
- Triple signal transduction model for the mechanism of prostaglandin E<sub>2</sub> actions in rabbit cortical collecting duct, 143
- Tumor(s)  
hepatic tumor-promoting activity of phenobarbital may be mediated by prostaglandin F<sub>2α</sub>, 45

possible involvement of delta-6-desaturase in control of melanoma growth by gamma-linolenic acid, 149

tumor-promoting activity of phorbolmyristate acetate may be mediated by arachidonic acid, 241

## U

- Ulcerative colitis, effect of leukotriene D<sub>4</sub>/leukotriene E<sub>4</sub> antagonist SR 2640 in, 181
- Urinary  
prostaglandin E<sub>2</sub>, effect of dietary calcium on, 197  
tetranorprostanemonoic and tetranorprostanedioic acids in the rat following long-term dietary fish oil supplementation, 159  
11-keto-thromboxane B<sub>2</sub> in normal and hypertensive pregnancies, 91
- Uterus  
biosynthesis of 3-series prostaglandins in the rat after alpha-linolenic acid feeding, 217  
effect of chronic alcohol consumption on spontaneous motility prostaglandin production and triglyceride metabolism in the rat, 119  
endothelin-1 stimulates prostaglandin F<sub>2α</sub> release from human endometrium, 155  
gestational development of prostanoid-forming capacity of rat, 15  
mechanisms involved in the stimulation by cycloheximide of prostaglandin production in the guinea-pig, 261  
prostaglandin production by amnion and decidual cells in response to bacterial products, 167
- Uveitis: prolonged corticosteroid treatment exerts transient inhibitory effect on prostaglandin E<sub>2</sub> release from rabbits' eyes, 101

## V

- Vascular system  
formation of epoxyeicosatrienoic acids from arachidonic acid by cultured rat aortic smooth muscle cell microsomes, 171  
inhibition by iloprost of contractile effect of noradrenaline in mesenteric artery rings, 185  
sequential release of eicosanoids during endotoxin-induced shock in anesthetised pigs, 209
